Touch Screen LCD  
Cash Register

- 9-inch, Color LCD Touch-Screen Control Panel with Backlight
- Programming Made Easy with Step-by-Step Prompts
- Retail and Restaurant Modes

- Sales Registration mode screen shown in picture.

### 9" Backlit Touch-Panel LCD Control Panel With User Prompts For Easy Operations

**Electronic Journal:** Is the electronic version of using 2-ply paper. Record in memory and then print out a journal record using the built-in printer with line-item details of all the day's transactions at the end of the day.

**200 Departments:** Program each Department with a name or description of up to 12-characters. Also, program the appropriate tax rate and individual prices. Each department can be set with special features such as gallonage for the sale of measured items, negative department and with an age limit.

**40-Clerk ID System:** Provides programmable clerk access for up to 40-employees. Allows employee names, up to 24-characters, to be printed on receipts. Provides sales analysis by clerk. Allows additional level of security with the optional requirement of numeric passcodes.

**3000 Price Look-Ups:** Program 12-character names or descriptions to easily identify each PLU. Reports print sales activity of each PLU.

**Age Verification:** On screen prompts warn the clerk to check customer's ID and verify their age for certain products. Up to two different ages can be set in the register, such as 18-years old for tobacco and 21-years for alcohol.

**Multiple Price Levels:** for each PLU. Allows discounted prices or different prices during different times, such as during a Happy Hour or a lunch menu versus a dinner menu. Also good for clearance items or end-of-day sales for fresh food, baked goods and other prepared foods (after a certain time of day).

**Serial Connection:** 2 Serial ports to connect bar code reader to the register and connect the register to your PC. RegisterLink Software includes a filter that downloads your end of day report totals directly to your QuickBooks Pro accounting programs and allows you to program your register from your PC.

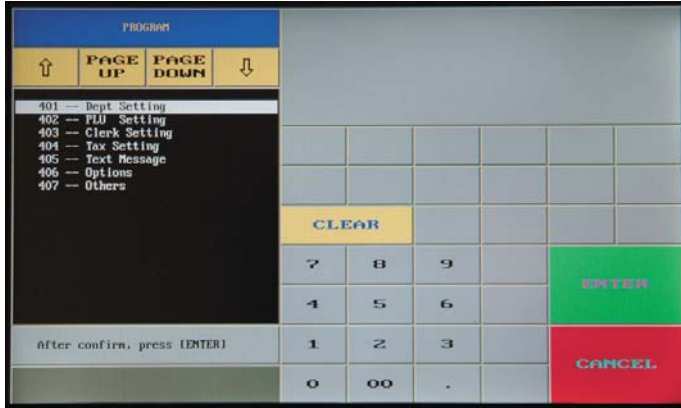

**Automatic Tax Computation:** Program up to 4 tax rates (Add-On, VAT and Canadian Tax).

CASH MANAGEMENT

## LCD Touch Screen Display

• Programming and Set-up Main Menu screen

• Department Programming screen - department description alphanumeric text input

## Ideal For Restaurants

**Direct PLU entry:** Up to up to 240-PLU's over 5-screens.

**Table Tracking:** Allows floating guest check and table transfer.

**Remote Kitchen Printer:** One remote kitchen or bar printer is supported

**Happy Hour:** One of three price levels for each PLU can be assigned to be valid during a specified time, such as Happy Hour, each day. Then, during that Happy Hour, a discounted price can be in effect. This can also work for different prices on the same item on a lunch menu versus a dinner menu at a restaurant.

### Compact Thermal Printer

#### Thermal Printer:

External, single station thermal printer allows both alpha and numeric characters to print on receipts and reports. Thermal printer is fast and quiet. Uses 2 1/4-inch (57mm) thermal paper. One additional external printer can be connected to the cash register as a Remote Printer for the kitchen or bar when the cash register is set in restaurant mode.

### Optional Handheld Bar Code Scanner

#### PS700 Optional Handheld Bar Code Scanner:

Ensures fast and accurate registration of items during check-out. Easy-to-use and convenient during sales check-out process and even during PLU set-up programming.
